Description

This CLICC service allows users with an internet connection and computer to access a CLICC Virtual Desktop loaded with a number of programs.

You can use this Software List to see which software is accessible online through CLICC Virtual Desktops (indicated in the “CLICC Virtual Desktop” column).

Detailed information on accessing a CLICC Virtual Desktop can be found in additional documentation.

For more detailed information on our software offerings, or to request software to be added to the list, contact us via the UCLA Library IT Help Portal.

Policies

This service is available to all with a UCLA Logon ID.

All instructors interested in using the CLICC Virtual Desktops for a course must submit an inquiry ticket to reserve desktops for instructional use during class sessions. When you visit the Reservations Portal, you will be prompted to create a Library account in order to submit a request.

Additional Information

Updates for this service are performed quarterly. Requests for updates and applications must be received at least 6 weeks prior to the start of an academic quarter. You may use the link to the Feedback portal below to make recommendations and requests.

For immediate questions about how to use the service (logging in, use instructions, etc), contact us via the UCLA Library IT Help Portal.
