

CLICC Software List

Accessing the CLICC Virtual Desktop from any computer with an Internet connection lets UCLA students, staff, and faculty work with software to help you study, teach, learn, and create.

Use this list to see what's on our roster of standard tools that you can find on the [CLICC Virtual Desktop](#). For more detailed information on our software offerings, or to request software to be added to the list, contact us via [the UCLA Library Service Portal](#).

For more information about CLICC Services, view [getting Started with CLICC Equipment - 2021-2022](#).

Software available on a CLICC Virtual Desktop
