

# Software configuration

## Description

UCLA Library Digital Initiatives & Information Technology (DIIT) will work with Library departments or individual staff providing assistance with software configuration upon request.

## Additional Information

These pieces of software prove to be particularly tricky when it comes to saving settings, first-time configuration, installation, or anything that comes up as a result of needing to image staff computers. Usually, this software has to be handled on a case-by-case basis, but we aim to automate the configuration of these programs.

- Voyager
- OCLC Connexion
- Spine Labels
- Location Changer
- Vicon Net
- LARS
- FTP clients
- Variations
- Outlook
- Internet browser settings
- SoundForge
- Oasis
- Ariel
